3. “I sent in my Authentication or Apostille Certificate order, but have not heard anything yet. What can I do?”

We are only able to offer information about whether or not documents have been processed or if they were returned because of errors. In order to verify this information we will need your last name, the country requesting the authentication or apostille, the fees included, and how you submitted the document to us (walk-in, mail, or courier). We strongly encourage you to use a courier service or request a tracking number from the post office for the delivery and return of your documents so you can track the location of the package.

Please be sure to write down your tracking number before you send it to us.

We are unable to track your document.

If you submitted a check as payment for your Authentication or Apostille certificate request, you may wish to contact your bank to determine if/when your check was processed. A cleared check has cleared indicates the Office of the Secretary of State has received and processed your certificate request. If the check has not cleared, it is possible that 1) your certificate request has been received and is being returned to you due to a discrepancy, 2) the Office has not yet received your request, or 3) the request is being processed.
